

# Protect your investment

Warranty, service and accident protection programs for the new BiliChek

BiliChek warranty, service and accident protection programs are available from Philips Children's Medical Ventures. These programs are designed to give you control over the cost of ownership of your BiliChek noninvasive bilirubin assessment tool and, if needed, to ensure timely and accurate repairs by highly experienced technicians.

Clinically proven, BiliChek allows you to noninvasively measure total serum bilirubin levels without the costs and time associated with a blood test, blood transport and laboratory services. A new ergonomic design improves dexterity, menu-driven instructions walk you through the measurement process, and a barcode scanner allows for verification of nurse and patient identification. It can also communicate with your electronic medical records system to automate patient charting and billing.

**PHILIPS**

Children's  Medical Ventures

Extended warranty, service and accident protection plans are available from Philips Children's Medical Ventures. Extended warranties provide assurance that your product is covered if your unit manufacturer warranty is coming to an end. If your warranty has already lapsed, a service agreement allows you to plan expenses and reduce the opportunity for exposure. Accident protection plans cover you for all repairs, including those caused by drops, spills or other mishaps that may occur during normal use. Whatever your service needs, we have a plan that's right for you.

## BiliChek noninvasive bilirubin assessment tool

### Extended warranty, service and accident protection plans include:

- All service performed using only Philips Children's Medical Ventures approved components
- Free return freight and packaging
- Devices cleaned and factory tested prior to return
- Free use of loaner while unit is being serviced
- Experienced technicians to ensure the job gets done quickly and accurately the first time
- Coverage for handheld unit, charger base, power supply and extra battery

### Extended warranty

Extended warranties provide the same protection as the standard one-year warranty and cover all electrical and mechanical system issues with your BiliChek.

### Service agreement

For units no longer covered under warranty, a service agreement allows the owner to renew the warranty. After a one-time check, your product will fall back under the full protection of a standard warranty.\*

Extended warranty and service agreement coverage includes:

- All parts and labor
- Full electrical, mechanical and functional check
- Repair priority (warranty unit repairs are given priority over non-warranty units)
- All required software and component upgrades
- One-year warranty on repairs
- Free use of loaner while unit is being serviced

1 year extended warranty	1064718
2 year extended warranty	1064719
3 year extended warranty	1064720

1 year service agreement package	1064721
2 year service agreement package	1064722
3 year service agreement package	1064723

### Accident protection

The accident protection program provides a higher level of coverage for your device than coverage under a warranty. It covers incidentals that can occur through normal use, including the following:

- All warranty or service agreement activities
- Drops, falls and other accidental collisions
- Damage caused by liquids spilled into unit
- Replacement of worn or broken parts
- Display, battery clips and all plastic parts

1 year accident protection program	1064724
2 year accident protection program	1064725
3 year accident protection program	1064726

\*Fee assessed for the one-time check (service agreement only).

Damage due to fire, flood, theft, or destruction caused by the use of tools is not covered under any of the programs.
